PROFESSIONAL SUMMARY

Master of Data Science graduate and Database Administrator with experience in South Australian Government information management, data quality, records administration and application support. Skilled in reviewing and cleansing structured records, documenting issues and supporting consistent workflows in compliance-focused environments. Additional strengths include Microsoft Excel, SQL, Python, Power BI, technical troubleshooting and operational leadership.

CORE SKILLS

Data & information: Data validation, cleansing and standardisation; records governance; electronic records; CRM and document-management workflows

Technology & analysis: Excel (pivot tables, lookups, filtering, data validation); Python; SQL; pandas; Power BI; Tableau; ETL and reporting

Operations & support: Application troubleshooting, procedural documentation, stakeholder communication, workforce and service coordination

EDUCATION & QUALIFICATIONS

Master of Data Science | University of South Australia 2024

Bachelor of Computer Science and Technology | Sathyabama Institute of Science and Technology 2020

Professional Year Program | Performance Education Aug 2025 - Aug 2026

PROFESSIONAL EXPERIENCE

Database Administrator | Department for Education, SA Apr 2025 - Present

- Maintain student-records database workflows, reviewing and cleansing information to support accuracy, consistency and reliable administration.
- Investigate data discrepancies, support standardisation and assist with application issues, records lifecycle procedures and audit-aware information handling.

Public Administration and Information Officer | Department for Education, SA Aug 2024 - Mar 2025

- Maintained and verified sensitive information in CRM, licensing and compliance-related administrative workflows.
- Reviewed supporting records for completeness and confidentiality, coordinating with stakeholders to resolve information issues.

IT Support Consultant | University of South Australia Mar 2022 - Jul 2024

- Supported CRM and document-management application users, investigating software, hardware and workflow issues.
- Maintained technical guidance and collaborated with colleagues to clarify incidents and improve support consistency.

Store Manager | Oporto May 2022 - Apr 2025

- Coordinated daily operations, staff rostering, workforce allocation, payroll-cycle activities and service standards.
- Reviewed sales and operational information to support staffing and stock decisions; coached team members and resolved service issues.

PROJECTS & APPLIED ANALYTICS

Student Records Analysis | Excel, Power BI

- Reviewed approximately 10,000 student records for duplicates, completeness and consistency, and built Power BI views of data quality indicators.

Supermarket Sales Optimisation Analysis | Python, pandas, Excel

- Cleaned and analysed approximately 100,000 retail transactions; explored sales patterns, customer segmentation and forecasting, with visual reporting.

Weather Forecasting & Data Pipelines | Python, ARIMA, Power BI

- Prepared weather data, evaluated short-term forecasting approaches including ARIMA and Random Forest, and visualised time-series findings.

Reddit Sentiment & Mental Health Language Analysis | Python, NLTK, Tableau

- Applied NLP methods to social-media text and evaluated language classification in an independent, non-clinical research project.

Electricity Consumption Forecasting | MATLAB, ANFIS

- Investigated adaptive neuro-fuzzy methods for electricity-demand forecasting and contributed to publicly available academic research.

COMMUNITY INVOLVEMENT

Uni Mentor, University of South Australia (Mar 2022 - Mar 2024) | Adelaide Fringe Festival volunteer (Jan - Apr 2024)
